Address:

Reedsburg

Price:

225.00 \$

Older high quality horse-sized harness in very good condition. Stored inside every winter, well cared for, and only lightly used in summer. Leather is of excellent quality with years of use left in it; stitching is good; and the brass fittings are solid and is of a high quality not seen in the "modern" nickle-plated fittings. The patent leather on the saddle has a few superficial cracks (see image). Harness has all components (reins, saddle, tugs, back breeching, etc), plus an over-check and 2 bits (one snaffle design, and one shank design).
